When Hood's Sarsaparilla Gives Strength and Vigor

Backache and That Tired Feeling Promptly Cured.

"I was feeling very miserable. I was tired all the time, had no appetite and felt sore all over my body. I had backache so that when I stooped down it was hard to raise myself up. I was hardly able to work and was just making up my mind to give up my work when I read an advertisement of Hood's Sarsaparilla. I determined to try this medicine. When I had finished one bottle I felt a great deal better. I did not stop my work, and after I had taken the third bottle I felt as well and strong as I ever did in my life. Since then I have taken Hood's Sarsaparilla when my blood was impure and I recommend it to everyone who does not feel well." JOHN J. EICHENBERG, 928 Melrose Avenue, Detroit, Michigan.

## LADIES' AID SOCIETY

Of the First M. E. Church.—  
The Good Work

IT HAS DONE IN THIS CITY.

History From the Beginning to the Present Time.—"Twenty Years History"—Paper Read at 20th Anniversary Celebration.

The following history of the Ladies' Aid Society of the First M. E. church was read at the recent celebration of its twentieth anniversary, by Mrs. Daniels:

In the spring of 1878 there was organized by the pastor of this church, Rev. C. R. Kellerman, a society whose preamble read as follows: "This society shall be called the Ladies' Aid Society of the M. E. church of Owosso, and shall have for its object the interest of the church and the raising of money for various objects pertaining to the welfare of the church." It started out amid many discouragements but was guided by the kindly and wise counsels of the pastor, and aided by his wife. Wisely and well was the foundation laid.

From that time to this, the society has never disbanded, never changed its name nor object, and very seldom its chief officers. We have had but six different presidents, Mrs. L. Hopkins being the first elected. She held the office for five years and was succeeded by Mrs. W. H. Boice, who served for one year, and Mrs. Hopkins again held the office for two years. Mrs. Mary Snider one year. Mrs. J. T. Peters was then elected, but before the year was finished she was stricken with paralysis and the Lord called her home. Mrs. Snider was again elected for one year, followed by the writer who was president five years. Mrs. Hopkins again stood at the helm for one year and was succeeded by Mrs. Mary Looker, our present president, who has held the office nearly four years, and so faithfully and acceptably has she worked for the best interests of the society that we think she has it for life. Nine secretaries have kept the records of the society. Mesdames Emma Van Tuyle, Emma Morton, O. C. Seelye, M. E. Densmore, Alice Henderson, C. Cole, A. W. Johnson, the writer, and the present very efficient secretary, Mrs.

of Cod-Liver Oil with Hypophosphites. We are willing to trust in his answer.

For twenty-five years doctors have prescribed our Emulsion for paleness, weakness, nervous exhaustion, and for all diseases that cause loss in flesh.

Its creamy color and its pleasant taste make it especially useful for thin and delicate children.

No other preparation of cod-liver oil is like it. Don't lose time and risk your health by taking something unknown and untried. Keep in mind that SCOTT'S EMULSION has stood the test for a quarter of a century.

SCOTT & BOWNE, Chemists, New York.

Alice Tuthill. But four ladies have "carried the bag." Mrs. Sarah Belford Ewer who is with us no more, for God called her and she went to her heavenly home, about three years ago. Ruth Gates Morton was the second treasurer and then Ella Smith, now Mrs. Elmer Howe, filled the office. For nearly ten years the office has been held to the entire satisfaction of all by Mrs. Agnes Goodwin, who is always at her post.

The first lecture course ever given in Owosso was given by our ladies during the first year of the existence of this society. Among the lecturers were our own Bishop Ninde and Mary T. Lathrop. The proceeds were \$71. The amount raised during the year by the society was \$284.47. Mrs. Belford was the chairman of the executive board and much of the success was due to her untiring efforts for the society.

Among the names of the earlier members of the society were some who as long as they lived had the interests of the society at heart and worked for its advancement as the Father gave them strength until he said: "It is enough, come up higher." These were Mesdames David Parker, Abram Latimer, Moses Mix, and O. Place. Others are with us yet, others have moved away and still others are at work in other churches.

The next year the society worked very hard, paid toward repairing church \$80, toward salary of minister \$90, and \$10 toward the Episcopal hall.

In September of '81, Rev. Seth Reed became pastor of the church. About this time Prof. and Mrs. O. C. Seelye came to Owosso. They with Mrs. Reed were a strong reinforcement to our society.

The new parsonage on N. Washington street was purchased for \$1,000. We paid on it this year \$120. On minister's salary \$50, bought wood for church, paid sexton etc., closing the year with \$17.05 in the treasury.

In '82 we rented rooms down town and served refreshments every Saturday. The receipts this year were about \$350. While Mr. Reed was pastor the chapel was built, which the ladies carpeted, and for which they bought shades. The interior of the church was fixed over and newly papered. A new furnace put in, new chandeliers bought, and the windows were papered to represent cathedral glass. The ladies worked hard at the church and with them was Mrs. Reed, who worked day after day cutting and pasting the paper. She was at that time called the mother of the L. A. S. Many thanks are due Mr. and Mrs. Reed. We have Mr. Reed with us tonight but she has gone. "Blessed are the dead who die in the Lord, their works do follow them." Toward paying for all of these repairs the society helped.

In '84 Dr. Hedley lectured for us netting us \$35. On the 4th of July Owosso "celebrated," and we served meals down town and made \$191.08. This year we built our dining hall on the fair ground, paid \$227 on salary and closed the year with \$19 in the treasury.

In '85 we united with the Baptist ladies in a lecture course, the gentlemen gave a "basket social" and Mme. Fry sang for us. We served meals on decoration day, show day and at the county fair.

In '86 we added a kitchen to our dining hall at the fair ground and since that time until last year (when there was no fair held) have served meals every year but one.

During Mrs. Snider's second term of office we had a very successful year. Many were added to the church. Our pastor Rev. C. B. Spencer and his wife stood by us nobly and gave us great assistance. The next year we finished paying for the parsonage and started a fund known as the "building fund." We repapered the parsonage. We served a banquet for the Business Men's Association, held a harvest fair which brought to our treasury \$229.14. A very interesting session of the "Deestrick school" was held with Mr. L. Hopkins as teacher.

During these years we held monthly teas which netted a goodly sum and were of great benefit socially. It was at this time that so many strangers came into our church and we were so crowded that we began to talk "new church" but it was thought best to build a chapel, so Asbury chapel was built. This has grown from a chapel into a prosperous church with over three hundred members. Sept. 15, 1890, \$400 was taken from the building fund and paid on the building that is now the M. E. parsonage, corner of Ball and Oliver streets. \$102 was paid by our society repapering and painting it for our new pastor, Rev. E. B. Bancroft. We began the year with over \$200 in the treasury. In March of '91 we pledged \$500 (which sum seemed to some of our ladies so large that we could never pay it) toward the new church which had become a necessity. We helped Bro. Bancroft get up a church directory, the result was \$97 to our credit. When the corner stone of the new church was laid we served supper in the old chapel and could not find room for the crowds that came. We worked early and late, sewing, quilting, serving teas and selling carpet cards, and when dedication day came we had paid \$410 on our pledge and promised to pay for the carpet, and I am sure as we looked around our beautiful new church home on that day, no happier hearts beat than those of the ladies who had worked so hard.

We made and laid the carpet saving over \$100. We made pledge after pledge on dedication day until with our former pledge and what the carpet cost, we had pledged \$3802.43. The first supper given in the new church was a "chicken pie" supper given by our society—proceeds nearly \$100. In '92 we held the Business Men's Jubilee, which brought to us \$175.45. We served meals on show day, at the prohibition convention and during four days that the Detroit conference was in session. Later we gave "the Orange grove festival." Our receipts were the largest this year in the history of the society, being \$1,097.37. At the second anniversary of the dedication of the church we had paid on our pledge \$1,473.63; paid \$70 a year interest on parsonage \$138.63 for furniture; and kept the parsonage papered and painted. The next year we held a world's fair, served prohibition and the doctors' banquets, meals during state encampment of G. A. R. and W. R. C., and anniversary chicken pie supper and our monthly teas. In January of 1895, instead of having teas we began to raise money by monthly collections. Our collectors visited each lady at the beginning of the year to receive her pledge and every month call on her for the amount of her pledge. In this way we have raised \$500. In '96 and '97 in addition we have worked in every way possible to raise our money. In '96 we served the Christmas supper for the S. S., and last year gave several "At Homes." These are very pleasant gatherings held for the purpose of becoming acquainted with each other and are free to all. One of our ladies makes aprons and two others sunbonnets, for the society, netting quite a sum for us. Give them a call. We tie comfortable and have sold nearly 300 lbs. of Aunt Jemima's Baking Powder for which we receive 40 per cent of sales. During all of these years our pastors and their wives have aided us by giving us of their time, talents and money, and our present pastor and his "sweet" wife are no exceptions. The official board have also stood by us and our janitors have been very faithful and rendered efficient help. Our society has suffered during the hard times for the last few years as have all others, but we believe "under every cloud there is a silver lining" and we are not cast down nor discouraged but feel that we have just cause to be thankful for the measure of our success. The total amount raised since our organization is \$8,027.17. Our unpaid pledge is less than \$1,400 and we feel sure that it will all be paid before the dawn of the 20th century.

**Deafness Cannot be Cured**  
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

**A SUCCESSFUL LIFE.**  
The Theme of a Strong Sermon by Rev. C. V. Northrop, Sunday Evening.

The large congregation which filled the body and gallery of the auditorium of the Baptist church, Sunday evening, was well repaid for braving the storm that prevailed without. Master Fred Daly, the boy soloist, with a marvelous soprano voice, sang three selections very effectively. Pastor Northrop was at his best and gave a most excellent sermon which was listened to with close attention. He spoke as follows:

Joshua 1:8 The book of the law shall not depart out of thy mouth, but thou shalt meditate therein day and night, that thou mayest observe to do according to all that is written therein; then thou shalt make thy way prosperous, and thou shalt have good success.

That sounds truly American. There is something in that magic word "success" that inspires all hearts and sets in motion mighty purposes. A great future in business, in society, in politics, in scholarship, in civil and church affairs, awaits the coming youth. Shall he be well equipped for the conflict? Shall he be well panoplied from head to foot in christian character? Then he must make the right start. A mistake here will be felt throughout the entire life. Success cannot be attained with leap and bound; it will not spring up as did Jonah's gourd, in a night. It has to be achieved.

Young people may laugh about the moral precepts and christian teachings of father and mother when they launch out into life, but it will be laughter turned into weeping before life is finished. The basis of life work is seriously essential. God's book must be written with a pen of iron in the heart; the Word must become a part and parcel of one's being if one would prosper. The reason that men fail by the thousands is because of wrong moral foundation. The reason that men go to pieces in theology, after occupying pulpits of trusts of years, is the fact that they started wrong. They never were truly encased in the deeply imbedded principles of christianity when they put

on the armor for the fight. Trace where men began, and you will soon discover something that will be an eye-opener. Men go down in the flood of business disaster and social disorder because they switched off on the wrong track when they bade father and mother adieu at home. It was the crossroad where the tempter came and spoke the treasonable, damnable word that made the wreck at the other end.

But there can be no real success, mind you—success that will be lasting and happy—unless the groundwork is in God's holy law and anchored to Christ's immutable rule. Only one in four thousand marvelously prosper or reach high honor. I believe with all my soul in the sentiment of this text; it is repeated over and over again in that other text, which shall be my first practical point:

I seek first the kingdom of God and His righteousness, and all these things shall be added unto you.

Mind you, I do not say this because I am in the pulpit; I do not say it because I am a minister of the gospel, I do not say it because we have met within the walls of a place of worship; but I do say it, because it is true and because it is of the utmost importance and consequence that you should lay it to heart. That he only starts right and well who takes God with him, and dominated by a deep and genuine religion. Spirituality first, temporalities second.

The reason that there are so many wrecks along our moral seaboards is that young people get the cart before the horse, and the result is that men and women are going to pieces by tens of thousands all around us, and nothing but the Almighty hand can save the tens of thousands yet to come.

II. A successful man must have a high sense of christian honor.

There is such a thing as commercial honor, and there are men who would almost die before they would allow their names to be tainted as men of ill-repute. I plead tonight for every one starting in life to feel that they are united by the the highest and holiest bond of religious honor, and for that he must have a high ideal. What does this high honor do for one? In the first place, a man who has a high ideal of honor is a man who accepts responsibility. The noblest word in our language is responsibility; its real meaning is answerableness. When young Samuel replied to the vision that came before his boyish idea, "Here am I," he had the idea of responsibility, he answered. It is only a man with a white soul who can go out to God and say to God, "Here am I," when duty demands.

And then there is another thing that is needed on the part of young people—courage. If a man has a high ideal of honor, that man is going to be a man of courage. And if a man has a high ideal of honor it will knock the conceit out of him. The great danger that comes to young people when they have their first opportunity of usefulness, is that disease which has been discovered in—Spain, I think—the swelled head. I don't know its technical term. And when a young man discovers that he is useful the first temptation is to over-rate his usefulness, and that moment he closes his usefulness. It is the humble man only that is serviceable.

III. The performance of tremendous hard work. I would have no geniuses among our young people. I am always afraid of a young man who thinks that he is a genius in the sense that he does not need to perform hard work, and if I find that his mother agrees with him, I have no hope for either the son or the mother. What we fondly call genius is often the child of application. I know of no element of genius worthy of emphasis except willingness and ability to do tremendous hard work. It is not work that kills but worry that rusts and destroys. God has put work and worth side by side—if you want worth you must work. If you want pebbles you can go out and gather them; if you want diamonds you must go and dig for them. You have got to climb the ladder of life—there is no elevator to take you up. Do you murmur about the relentless competition? There is no competition at the top. The crowd is at the bottom. And when by skill and industry, faith and fortitude, you have attained the height you set your heart on reaching, you will discover that there is no competition there. You will then be able to dictate your own terms and claim the reward of honest, earnest work. A young man in whose manhood reason is luminous, and self respect is positive, and honor and honesty and pure love are all in all, to such a man all the world is open. He himself is a force above all other earthly forces, and by and by he will be a luminous son of God in the city of our God.

**American Securities Abroad.**  
The sales of American securities have been according to London advices, very large abroad of late. If this state of things holds, there will be an increasing influx of British gold into this market. This demonstrates the faith abroad in the stability of our credit. There is another point of faith for which the people not only of this, but foreign countries have good ground for credence, and that is belief in the efficacy of Hostetter's Stomach Bitters for inorganic maladies which affect the stomach, liver, bowels, kidneys and nerves. Dyspepsia, biliousness, constipation and rheumatism are conquered by it. It hastens convalescence, and diffuses a generous warmth and sensation of physical comfort through the system.

Spanish bonds and hopes took another drop last week.

## SURE CURE FOR RHEUMATISM.

The statement that there is a cure for Rheumatism will be read with incredulity by the majority of people. However, it is a fact which we can prove. Rheumatism is a disease of the blood, and until that is thoroughly cleansed no one can expect relief. The remedy we offer is not a new discovery, but it has never been placed on the market in medicinal form. We know from personal observation that it has effected a permanent cure whenever tried and this is what suggested the idea of offering it to sufferers from rheumatism. The Sure Cure Rheumatic Tablets are a purely vegetable compound. They are warranted to cure the worst cases of rheumatism. Price, 50 cents a box. For sale by druggists, or sent by mail on receipt of price. Send for free sample.
